

Use four strands of embroidery thread throughout. A four inch embroidery hoop recommended.

Bring the needle up at the starting point of your line. Take the needle back down through the fabric either to the left (if right handed) or right (if left handed) to make a stitch. Bring the needle back up through the middle of the stitch, splitting the threads. Take the needle back down in same direction to finish the stitch.

Continue to bring the needle up through each previous stitch to continue the split line.
