

Straight stitch creates, as the name states, a straight line. Bring your needle up at the beginning of the line, bring the needle back down at the end of the line where you want the straight line to be. Voila!

Add as many straight stitches as you like to get your desired effect. Varying the size makes the pattern dynamic.

# About Liz and Open Coven

I come from a family of makers. My mum made all our curtains and many of our clothes, not to mention dolls and other things we needed. I had a grandmother who crocheted and another who knitted. I began sewing when I was very young and was immediately addicted. Over the years I have done cross-stitch, patchwork, needlepoint, and embroidery. I particularly love hand sewing. I'

Originally from the UK, I now live in Western North Carolina in the US where I sew and spend time with my family of husband, daughter, two cats, and a dog.

My interests - including witchcraft and folklore - inform my projects.
